2. Industrial Business Management ([Brochure 簡介](#))

Máster en Gestión de Empresas Industriales

Master in Industrial Business Management

Como graduado universitario, procedente de titulaciones técnicas y científicas, obtendrás los conocimientos y habilidades necesarias para desarrollar tu carrera profesional en el ámbito de la gestión y dirección de empresa.

Podrás asumir tareas directivas y responsabilidades de gestión en cualquier área funcional de la empresa, sea cual sea su tamaño y liderar la creación de nuevas empresas de base científico-tecnológica.

As a university graduate coming from technical and scientific qualifications, you'll obtain the knowledge and skills necessary to develop your professional career in the field of management and business management.

You can take on managerial tasks and management responsibilities in any functional area of the company, regardless of its size and create new companies with a scientific-technological base.
